

	<p>Our Earth...</p>  <p>Healthy, strong and full of life...</p>	<p>But, wait...</p>  <p>What's that you've got there ?</p>	 <p>It looks like you've got...</p>	<p>...a case of the humans !</p> 
<p>To be a healthy Earth,</p>  <p>all of your elements must be in equilibrium.</p>	<p>However, these parasites squatter all other forms of life...</p> 	 <p>...guzzle all</p>	<p>your natural resources...</p> 	 <p>... and poison your atmosphere !</p>
	<p>Once contracted, humans act quickly: they multiply over 300 000 a day ...</p>		<p>... consuming anything they cross on their path.</p>	
<p>Earth is just the start...</p> 	 <p>Who knows what's next ?</p>	 		<p>brought to you by</p>
